Brand name: Duplikium (one word, capital "D")

Designed for traders of all types: High-Frequency Traders, Signal Providers, Prop Firm Traders, Money Managers, and Brokers.

Complete description: Duplikium is the best cloud-based Trade Copier for MT4, MT5, cTrader, Tradovate/NinjaTrader, DXTrade, TradingView, FXCM, LMAX, Fortex, and more. It copies trades with ultra-low latency between thousands of brokers worldwide, across all markets offered by your broker, such as Forex, Stocks & Indices, Crypto, Commodities, Futures, and Synthetic indices. Mix and match platforms in one Trade Copier!

Short description: Best Cloud-Based Trade Copier for MT4, MT5, cTrader, Tradovate/NinjaTrader, DXTrade, & more.

Tag line: Copy trading has never been so fast, reliable & easy.

Media Kit Usage Guidelines

- Use the official Duplikium logos, banners, screenshots, and marketing copy provided in this Media Kit.
- Represent Duplikium as a cloud-based trade copier, not as a broker, exchange, or trading platform.
- Feel free to resize assets proportionally, but do not alter, distort, recolor, or modify the Duplikium logo.
- Do not promise specific profits, returns, or guaranteed trading results.
- Do not imply that Duplikium is affiliated with, endorsed by, or owned by any supported broker or trading platform.
- Platform names, logos, and trademarks shown are the property of their respective owners and are used solely to indicate compatibility.
- When possible, link to <https://www.trade-copier.com> when promoting Duplikium.
